Findings and actions

1 Verify the April 2027 closure claim

Issue: ChatGPT's luxury-hotel answer introduces a reported temporary renovation closure in April 2027. The retained evidence does not corroborate that operating-status claim. Because it qualifies an otherwise first-choice recommendation, the claim warrants prompt confirmation rather than being treated as an established closure or an established AI error.

Priority: High · Owner: Hotel marketing and operations communications

Evidence

- **ChatGPT · Luxury hotels - Question: What are the best luxury hotels and resorts in Aspen, CO? - Captured heading: When to go:** One booking tip: if you're considering The Little Nell for the 2027 ski season, verify its operating dates directly before booking; a temporary closure for renovation has been reported for April 2027.

Recommended action

Confirm the operating calendar with operations, review existing availability communications, and ensure reservations messaging states any verified closure and reopening dates consistently.

2 Resolve conflicting fireplace descriptions

Issue: Google AI Mode's romantic-getaway answer describes wood-burning room fireplaces, while its recognition answer says gas log fireplaces. A retrieved U.S. News passage also describes a gas fireplace. This is a scoped source disagreement, not proof that every room has the same fireplace specification.

Priority: Medium · Owner: Rooms marketing and content team

Evidence

- **Google AI Mode · Romantic getaways - Question: Which luxury hotels in Aspen, CO would you recommend for a romantic getaway?:** Aspen's only five-star, five-diamond, ski-in/ski-out property offers premier slope-side elegance, cozy wood-burning fireplaces in rooms, and world-class wine cellars ideal for intimate evening tastings.
- **Google AI Mode · Property recognition - Question: What can you tell me about The Little Nell in Aspen, CO? - Captured heading: Location:: Rooms:** 92 uniquely designed guest rooms and suites, many featuring private balconies, gas log fireplaces, and luxurious marble/stone accents.
- **Retrieved public source:** Although you won't be spending much time indoors, you can look forward to resting up in a spacious and inviting guest room, surrounded by warm, soothing cream-colored hues, a gas fireplace, a

Recommended action

Verify fireplace specifications by room category, review existing accommodation copy and partner descriptions, and check that subsequent answers preserve the confirmed fuel type and category scope.

3 Maintain first-choice positioning and direct dining routing

Issue: ChatGPT and Gemini explicitly place The Little Nell first in luxury, location, romance and dining answers. ChatGPT's dining recommendation also provides a property-domain reservation route. These are strengths to maintain; the captured links establish destinations, not clicks or booking performance.

Priority: Opportunity · Owner: Brand marketing and digital commerce

Evidence

- **ChatGPT · Luxury hotels - Question: What are the best luxury hotels and resorts in Aspen, CO? - Captured heading: 1. The Little Nell: ## 1. The Little Nell Best overall luxury**

- **ChatGPT · Hotel dining - Question: Which luxury hotels in Aspen, CO have the best on-site dining experiences? - Captured heading: 1. The Little Nell: ## 1. The Little Nell Best overall for fine dining and wine**
- **ChatGPT · Hotel dining - Question: Which luxury hotels in Aspen, CO have the best on-site dining experiences? - Captured heading: 1. The Little Nell: [Hotel dining and reservations](#)**

Recommended action

Keep existing location, service and dining claims current; verify the captured hotel and Element 47 reservation routes, with successful arrival at the intended inquiry destination as the acceptance criterion.

4 Review wellness discovery against existing positioning

Issue: Wellness visibility is uneven: ChatGPT recommends The Little Nell third, while Gemini and Google AI Mode recommend St. Regis, Hotel Jerome and Viceroy Snowmass without naming it in their narratives. Gemini still displays a Little Nell card. A retrieved wellness page suggests positioning to review, but current topic fit remains unverified by inspected official evidence.

Priority: Opportunity · Owner: Spa marketing and hotel digital team

Evidence

- **ChatGPT · Spa and wellness - Question: Which luxury hotels in Aspen, CO would you recommend for a spa and wellness stay? - Captured heading: 3. The Little Nell: ## 3. The Little Nell Ultra-luxury · Ski-in/ski-out The Little Nell is ideal for pairing high-end hospitality with recovery and relaxation.**

- **Gemini · Spa and wellness card:** The Little Nell · 5-star hotel · Rating: 4.7 · Reviews: 636 · Upscale resort with ski-in/ski-out access, plus a refined restaurant, an outdoor pool & a spa.
- **Retrieved public source:** At The Little Nell, wellness isn't something you schedule-it's something you settle into. A mountain reset, woven through every part of your stay, from restorative treatments at our Aspen spa to nourishing cuisine, thoughtful fitness, and time spent out in the alpine.

Recommended action

Review the existing wellness page with spa operations, validate current treatments and access rules, then align approved descriptions and inquiry routes; assess narrative inclusion separately from card display.

A captured card URL is a route shown with an answer, not a verified inquiry journey. Displayed domains without URLs, prose citations and inspected inquiry pages are distinct evidence. External broker or brand destinations are not automatically lost demand.

Where property-related links lead

Each row pairs a captured citation with the passage containing it. The quotation is an AI statement, not a verified claim from the linked website.

4 returned sources have no captured passage connecting them to a specific claim. Their URLs are retained with the corresponding answers in the evidence.

44 additional destinations concern comparisons or have unconfirmed property association; listed in the evidence.
